

Figure Preflight Report

16 manuscript figures | 6 August 2026

Scope

All manuscript figures were separated into individual single-page PDF files. The source figures are high-resolution PNG files generated from reproducible scripts. This preflight checks dimensions, aspect ratio, numbering and basic readability, but the target journal may require EPS, SVG, TIFF or source-data files.

Figure	Source file	Pixels	Aspect	Status
1	v7_assurance_stack.png	2175 x 1187	1.83	PASS - vector-style content in high-resolution raster; verify target journal format
2	v7_architecture.png	2617 x 1342	1.95	PASS - vector-style content in high-resolution raster; verify target journal format
3	v7_cross_border_sequence.png	2617 x 1363	1.92	PASS - vector-style content in high-resolution raster; verify target journal format
4	v7_privacy_dp_pipeline.png	2617 x 1342	1.95	PASS - vector-style content in high-resolution raster; verify target journal format
5	privacy_v7_learned_attack.png	2288 x 1222	1.87	PASS - vector-style content in high-resolution raster; verify target journal format
6	dp_v7_utility.png	2288 x 1196	1.91	PASS - vector-style content in high-resolution raster; verify target journal format
7	v7_aml_evaluation.png	2617 x 1342	1.95	PASS - vector-style content in high-resolution raster; verify target journal format
8	aml_v7_families.png	2288 x 1222	1.87	PASS - vector-style content in high-resolution raster; verify target journal format
9	v7_sanctions_workflow.png	2551 x 1342	1.90	PASS - vector-style content in high-resolution raster; verify target journal format
10	sanctions_v7_policy_frontier.png	2288 x 1222	1.87	PASS - vector-style content in high-resolution raster; verify target journal format
11	sanctions_v7_workload.png	2288 x 1222	1.87	PASS - vector-style content in high-resolution raster; verify target journal format
12	v7_economic_decision.png	2617 x 1342	1.95	PASS - vector-style content in high-resolution raster; verify target journal format
13	economic_v7_identified_set.png	2288 x 1222	1.87	PASS - vector-style content in high-resolution raster; verify target journal format
14	v7_national_qualification.png	2617 x 1342	1.95	PASS - vector-style content in high-resolution raster; verify target journal format
15	performance_v7_scenarios.png	2340 x 1248	1.88	PASS - vector-style content in high-resolution raster; verify target journal format
16	performance_v7_capacity_bounds.png	2340 x 1248	1.88	PASS - vector-style content in high-resolution raster; verify target journal format

Publication actions

1. Confirm whether the journal accepts PDF figures at initial submission.
2. Export line art as vector PDF/EPS/SVG if required.
3. Confirm minimum font size after one-column and two-column scaling.
4. Supply source data for charts when requested.
5. Verify grayscale legibility and color-blind accessibility.
6. Remove decorative title-page formatting if the journal applies a strict template.
